Association for the Relief of the Poor.—Organized in the winter of 1849-50. This Society has for its object the suppression of three great evils: indiscriminate alms-giving, professional begging, and the actual wants of the poor. To carry out the plan of the Association, the city has been divided into 57 districts, with a visitor located in each. A map and directory have been prepared, by which an applicant for alms can be directed at once to the visitor within whose district he or she resides, who examines the case, and, if relief is really needed, the visitor gives an order on the Treasurer. The funds of the Association are raised by voluntary subscription; and every annual contributor and every visitor, is a member.

OPENING AND CLOSING OF THE HUDSON RIVER.

The days on which navigation has been resumed between New York and Albany, during the last five years, are as follows:

1852, March 19.

1851, February 25. Steamboat Oregon arrived, direct from New York, being the first boat which left that city this season for Albany. We believe this is the first instance in which the first boat which has left New York for Albany has been enabled to get through.

1850, March 9. Steamboats Hudson and Buffalo arrived.

1849, March 18. Steamboat Columbia arrived at 2 A. M.

1848, March 22. Steamboat Admiral arrived at 4 P. M.

The following table exhibits the date of the opening and closing of the Hudson River, and the number of days open, from 1830 to the present time:

PRATT & Co.'s HARDWARE ESTABLISHMENT.

Among the objects of interest in our city, well worth a visit from the man of business, or the mere curious, is the celebrated hardware establishment of PRATT & Co., situated on the Terrace, and running back to the Erie canal, a front view of which will be seen on the map. The whole warehouse has a front of eighty feet, running from the Terrace—one of the broadest avenues of our city—to the Erie canal, one hundred and seventy-five feet in depth, presenting, as will be perceived, a very imposing and handsome edifice.

THE GROUND ROOM, fronting on the Erie canal, is used as a deposit for flat, round, bar and band iron and steel, nails, and other descriptions of bulky and heavy goods, which are landed directly at the door, and when re-shipped, are taken by carts and drawn directly through the building to Terrace street, and from thence to their destination when sold. There is storage room here for from four thousand to five thousand tons of iron, and for upwards of five thousand casks of nails, leaving ample room for six or eight carts to load or unload and turn around.

The amount of iron in stock, at the present time, is very large, and we were much surprised to learn that their sales of the various qualities of American, English, Scotch, Swedish, and Norwegian Iron, swelled up to the enormous amount of three thousand tons, during the past year. The arrangement and classification of the various kinds of iron and steel, is deserving of particular admiration—everything being placed with reference to being got at and removed with the least difficulty.

THE FIRST FLOOR, on Terrace street, is divided into three apartments—one of them, thirty by sixty feet, is subdivided into counting rooms, private offices, &c., all communicating with each other, and divided by glass partitions only. Here is a most orderly and admirable arrangement of the desks of the subordinates and principals. The vault, as capacious as any of our bank vaults, and protected by one of Day & Newell's celebrated locks, similar to those exhibited by Hobbs at the World's Fair in London. The next apartment is a beautiful room, thirty by one hundred feet, called the Retail Room. Here, again, the admirable

arrangement calls for special attention. The nail bins, with iron bottoms, formed exactly to suit—the file drawers, one hundred and twenty-five in number,—glass cases for painted and Britannia ware—sample cases, &c., &c., all betoken the utmost attention to simplicity and order, allowing customers to examine goods with the least possible delay. The adjoining room, fifty by one hundred feet, is devoted to heavy goods, such as chains, anvils, saws, axes, &c., &c., which are also conveniently arranged in classes. In the retail department, P. & Co. pay particular attention, using it more as an adjunct to their wholesale trade than for the mere profit of the business—as, from the infinite variety of calls for articles in this department, they are better enabled to anticipate and supply the wants of their wholesale customers.

THE SECOND FLOOR is also divided into three apartments, two of which are shelved and countered in the most convenient and beautiful manner, and stocked with every variety of shelf hardware, for wholesale trade only. The adjoining apartment is the Sample Room, and it might well be termed a "Museum of Artificial Curiosities." Here are admirably arranged by classes, samples of all the various kinds of goods for sale in the establishment, from the heavy cross-cut saw down to the finely tempered and delicate article used for severing iron and steel—from the massive bank lock to the minute article used for securing a lady's dressing case; cutlery, hinges, lanterns, carpenters' tools, skates, axes; in short, almost every article of which metal forms a part or a component, are, in their several classes, all so scientifically arranged, as to enable the wholesale customer, at a glance, to decide upon his selection, and thus save much time usually spent in rambling about the store, and opening and shutting drawers, boxes, &c.

Above these rooms are four floors, which might, perhaps, properly be termed four stores, devoted to the storage of bulky goods, such as shovels, rakes, hoes, &c. &c. A part of the third floor is shelved and countered, and is devoted to jobbing purposes.

The whole establishment is warmed by two of Kneeland's Furnaces, placed in the basement, which are said to answer the purpose well. The water from the roof is received into a tank in the attic story, and from thence distributed by pipes into each story, with water conductors leading into the canal. The whole premises are lighted with gas—the pendants in the retail and jobbing rooms are very beautiful.

Some idea may be formed of the magnitude of the business of this establishment, when we state that their sales the past year amounted to over half a million of dollars,—that their average stock on hand exceeds \$200,000,—that they give direct employment to over forty clerks and assistants,—have the exclusive agency of the "Buffalo Iron Works and Rolling Mills," where orders for any unusual size of iron can be executed at short notice,—the "Niagara Pail Factory," where over sixty men are employed, and some \$60,000 worth of pails and tubs are annually manufactured—besides numerous smaller establishments, for the manufacture of axes, hoes, cutlery, &c.

In arranging and perfecting the business through a course of upwards of thirty years, the proprietors have done much, both directly and indirectly, to build up a manufacturing business here, and the continuance

and necessary augmentation of the establishment, as a matter of course, must continue to have an immense influence in fostering and building up a large manufacturing interest in our own immediate neighborhood. The enterprising proprietors, Messrs. Samuel F. Pratt, Pascal P. Pratt, and Edward P. Beals, are eminently deserving of the success which has crowned their efforts. The senior partner has been in the hardware business, as clerk and principal, over thirty years; and both the junior partners have grown up with it, having over sixteen years experience. Strangers visiting Buffalo, should by no means omit calling here; whether their object be business or mere curiosity, they will find courteous and gentlemanly attention, and every facility given to examine this vast concern, which has grown to be emphatically one of the "lions" of Buffalo.

We have thus gone quite minutely into the detail of this truly extensive establishment, and we confess we take an honest pride in so doing; we have traveled some, and we have no hesitation in asserting that it is the most extensive and best arranged hardware establishment in the United States.

8 to 10,000,000 Feet of Pine Lumber FOR SALE.

I have made arrangements to receive from Canada West, from eight to ten million feet of Pine Lumber this season, of different qualities. Twelve hundred thousand feet of the lot is fifteen months old, and the best lot ever offered for sale in this market. Most of it is sixteen feet long, well sawed, and from ten to thirty inches wide.

All of the above Lumber is stacked up within two-hours after it is sawed, so that it comes to market in perfect order.

It will be offered for sale by the vessel load, or pile, at a low price, for cash, or notes having a short time to mature, with the interest added.

The Lumber will be received at the Dock, on the Ship Canal, and a lot on the Creek, near the Eastern Railroad Freight Depot, so that it can be easily shipped to any place on the Erie Canal, or by the cars of the different railroad companies leaving the city.

Manufactory, 37 Main St. Office, 20 Main St.

The Subscriber is now prepared to furnish, at the Old Buffalo Mill Furnishing Establishment, No. 20 Main Street, at the shortest notice, his Centrifugal Feeding, Patent Portable Flouring and Grist Mills, from twenty-four to thirty-six inches in diameter.

The assurances from all to whom these Mills have been sold, more than sustain the most sanguine expectations of their success. The Subscriber has in his possession, certificates and letters from purchasers, going to show their great superiority over every other description of Mill now in use, either Portable or Large Stones, both on the score of economy, of power, and quantity and quality of work done, in flouring or grist grinding. The amount of work these Mills are capable of performing is truly extraordinary. The certificates in the possession of the Subscriber, of Mr. White and Mr. Brown, of the Red Jacket Mills, on the Reservation, near Buffalo, show that the regular work of each of the Mills of this description, in that establishment, is from thirty to forty bushels corn per hour; and that one of these mills, three feet in diameter, ground, the last winter, in three months, 25,000 bushels of corn, without requiring one cent for repairs. Of the twenty Mills sold last year, not one but has given perfect satisfaction, in every particular, and performed far beyond my recommendations.

N. B.—Passengers wishing more variety, on going East from Niagara Falls, than is afforded by railroads, and not having time to go by way of Montreal, will find the route by the American Express Line, and railroads between Cape Vincent and Albany, agreeable and expeditious—leaving Niagara Falls at 11 A. M., going via Toronto, and reaching Albany next afternoon in time for cars and steamers for New York.

Both the United States Mail and American Express Lines connect, at Ogdensburgh, with the River Steamers, down the Rapids, to Montreal, and cars for Boston, over the Ogdensburgh Railroad to Rome's Point; from thence, by either the Vermont Central or the Rutland and Burlington railroads, through the valleys of the Green Mountains. Those for Saratoga, from Ogdensburgh, by railroad, or from Montreal by rail-road, take steamer at Rousse's Point for Whitehall, from thence, by railroad—or those wishing to make the delightful trip through Lake George, leave the Champlain Boat, at Fort Ticonderoga.

WELLS, FARGO & Co's NEW YORK & CALIFORNIA EXPRESS.

CAPITAL—\$300,000.

FOR THE PURCHASE AND SALE OF

GOLD DUST, BILLS OF EXCHANGE,

The Payment and Collection of

NOTES, BILLS, AND ACCOUNTS,

The Forwarding of Gold Dust, Bullion, Specie, Packages,
Parcels, and Freights,

Of all kinds and descriptions, and attending to a general Express,
Forwarding, and Agency Business.

The undersigned have been engaged in the Express business between New York, Albany, Buffalo, Cincinnati, Chicago, Milwaukee, and St. Louis, since its first establishment, under the firms of Pomroy & Co., Livingston & Wells, Wells & Co., Livingston & Fargo, and at this time, with the American Express Company, in the firms of Wells, Butterfield & Co., and Livingston, Fargo & Co.

The firm of Wells, Fargo & Co., a joint stock company, with a capital of \$300,000, has been formed to do a general Express, Forwarding, Collecting and Exchange, business, between the city of New York and the principal cities and towns in California; connecting, at New York, with the American Express Company, to all parts of the United States and Canada.

Our several Agents in California are authorized to draw drafts on us, payable at the principal Offices of the American Express Company, between New York and St. Louis, affording to persons in California, the most convenient, prompt, and reliable means of remitting to their friends in this country. Also, Drafts on California, for sale at the current rates of exchange.

We will attend promptly to the Collection or Payment of Notes, Bills, and Accounts; the Settlement of Claims. Also, to the Purchase and Sale of Goods and Merchandise, by sample or otherwise.

Our arrangements with the United States Mail Line of Steamers, enable us to offer great inducements to Shippers of Gold Dust, Bullion, Specie, and other valuables. Packages, Parcels, and Freights of every description, will be forwarded with despatch, and delivered at all the principal towns in California, and other parts of the United States, and foreign countries.

Messrs. E. P. Carter and R. W. Washburn, the former for many years connected with the American Express Company as agent at Albany, and the latter from the Bank of Syracuse, are the General Agents for California.

The first of these is the fact that the United States is a young nation. It has only been about 150 years since it was founded. This is a very short time in the history of the world. The second fact is that the United States is a large nation. It covers a vast area of land. The third fact is that the United States is a powerful nation. It has a large population and a strong economy. The fourth fact is that the United States is a free nation. It has a long history of freedom and democracy. The fifth fact is that the United States is a peaceful nation. It has never been involved in a major war. The sixth fact is that the United States is a progressive nation. It has always been at the forefront of social and technological change. The seventh fact is that the United States is a diverse nation. It is home to people from many different backgrounds and cultures. The eighth fact is that the United States is a resilient nation. It has always been able to overcome its challenges and emerge stronger. The ninth fact is that the United States is a hopeful nation. It has always been optimistic about its future. The tenth fact is that the United States is a nation of opportunity. It has always been a place where people can achieve their dreams.

BLAKE'S PATENT FIRE PROOF PAINT

The original and only genuine article that can be sold without infringement upon my Patent.

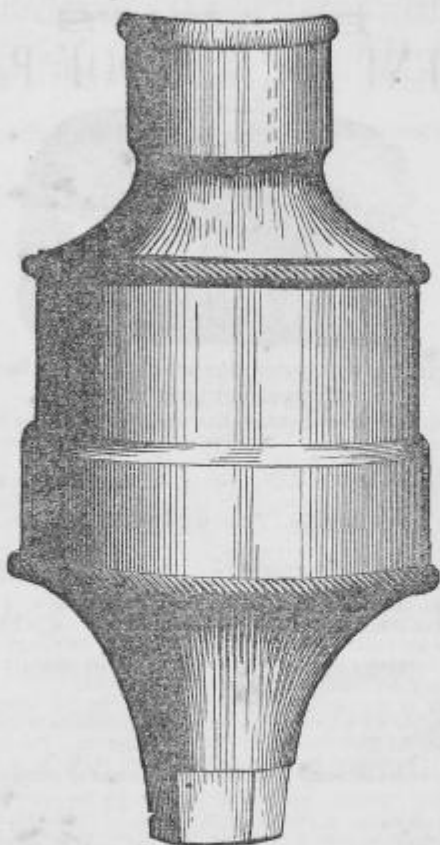

This article, in a few months after being applied, turns into slate or stone, forming a complete enamel or coat of mail over whatever is covered, bidding defiance to fire, weather, or water. It has been found, upon analyzation by Dr. J. R. Chilton, of this city, to consist of larger proportions of Silica, Alumina, Protoxide of Iron, and Magnesia, with lesser of Lime and Carbon. The transition, therefore, from the soft paint to the hard slate, is, in the opinion of Drs. Chilton and Lock, accounted for according to Nature's own laws, and the longer it is on the harder and more permanent it becomes. It has been tested about seven years, and where first applied, is now like a stone. It has also been tried in several fires in Akron, O., where all the Fire Insurance companies have since published they will insure buildings &c. covered with this substance, at a lower rate of premium than those covered with Tin or Zinc, considering it a better fire proof.

The Fair of the American Institute have, for the three last years, awarded to me the highest premiums. Diplomas have also been presented from the New York State Fair, and the State Fair of Mass.

Look out for Fraud.—As there are scores of unprincipled individuals digging, grinding, and endeavoring to sell all kinds of worthless counterfeit stuff, calling it Fire Proof Paint. No one can manufacture and sell the genuine without infringing my patent, which, having been submitted to referees, and also to the Hon. Daniel Webster, is decided to be good and valid. I have just commenced three suits against different parties, and am determined to prosecute every person who infringes the patent, and those individuals who have given credence to the pirates will soon have an opportunity of defending themselves before a court of justice. The original and genuine Patent Fire Proof Paint, either in dry powder or ground in oil, can, at all times be had at the General Depot,

**84 Pearl Street, from the Patentee,
W. BLAKE,**

KUMBEL'S PATENT MACHINE STRETCHED LEATHER BANDING

The only Patented Band in the United States,

Which has again been honored with the highest premium, a Gold Medal, (and the only Bands which have ever received a Gold Medal in this country,) from the American Institute, at the Fair of October, 1849, after being severely tested in competition; thus recognizing, from a most thorough, practical, and public trial, that rank and position which the manufacturing community has long since assigned it, as the best Leather Band Manufactured in the United States.

This Banding is made of the solid part only, of the best Oak Leather, is thoroughly stretched, cemented, and riveted, will run straight, and has a perfect bearing upon the pulleys.

From the superior mode of its manufacture, it possesses remarkable strength and durability, beyond any Banding manufactured. It also excels, in its running qualities, any Band made upon other principles, or of other materials.

The Belt made of leather is the only one that can be relied upon to perform well in all situations. It neither melts with friction, sticks in the pulleys, nor frets into shreds; nor is it subject to sudden combustion and destruction; all which are marked characteristics of Beltings made from gutts.

The Patent Machine Stretched Leather Banding, as made by the Subscriber, will stand more heat, more cold, more friction, and is far more durable, than those above referred to, and for all practical purposes; it can also be made water proof.

The best evidence of its quality is its adoption by nearly all extensive manufacturers and machinists throughout the city and country, the River and Sound Steamers, and, with marked approbation, by the various lines of Ocean Steamers. Since its introduction by the Subscriber, it has revolutionized machinery to the general exclusion of gearing; and the approval of practical mechanics is further emphatically expressed by the steady increase in the demand for it from year to year. Every Belt is warranted to possess all the qualities requisite for durability and good performance, or the money returned.

They can be furnished of any length or width, from one to thirty inches, either single, double, or round.

Also, superior Lace Leather, with rivets, burrs, punches, sets, &c.

BRADY'S NATIONAL GALLERY
OF
DAGUERREOTYPES

Nos. 205 and 207 Broadway, New York.

This establishment, believed to be the most extensive of the kind in the world, contains nine rooms, arranged in the most scientific manner, and provided with every facility for the production of Portraits in the highest style of the Daguerrean Art.

At the Annual Exhibition of the American Institute, for five years, the Pictures from this Gallery received

THE HIGHEST PRIZE;

And in 1849, the only Gold Medal ever bestowed on any Daguerreotypist in this country was awarded to the

PICTURES FROM THIS GALLERY.

In addition to these repeated proofs of public favor, Mr. Brady has received a

Prize Medal at the World's Fair,

A conclusive proof that he stands

SECOND TO NO MAN IN HIS PROFESSION.

Mr. Brady was the first to introduce the celebrated

PICTURES ON IVORY,

In which is united the perfect accuracy of the Daguerreotype with the fine and beautiful finish of the best Miniature Painting, at one third of the ordinary cost of similar pictures.

Mr. Brady has spent several years in forming a collection of

Portraits of Eminent Persons,

And his Gallery is well worth an examination by every one visiting New York, as it contains upwards of **FIVE HUNDRED LIFE-LIKE PORTRAITS** of the most distinguished Statesmen, Scholars, and Artists of our country. Open at all times to the free examination of the public.

PANACEA & COUGH SYRUPS

Liniments, Cholera, and Diarrhoea Preparations,
 Each adapted to the diseases for which they are recommended.

Office, 199 Broadway, N. Y. and 193 Atlantic St. Brooklyn.

THE COUGH SYRUP—For Consumption and all diseases of the Lungs, Bronchitis, Catarrhal Coughs, Colds, Whooping Cough, and Coughs of all kinds; Sore Throat, Dyspeptic, Asthmatic, Dropsical and Spinal Affections, Pain in the Side, Back, and Chest; Bleeding at the Lungs; Liver Complaint; Debility, &c. For the above diseases, it is not surpassed by any preparation extant, and only wants trying to recommend and extend its use. It is free from all opium, and all deleterious drugs, and can be safely and beneficially used.

THE UNRIVALED LINIMENT—For Salt Rheum, Ringworms, Rheumatism, Cuts, Bruises, Cramps, Head Ache, Quinsy, Sore Throat, Chilblains, Pains in the Joints or Limbs, Chapped Hands, Erysipelas, Scald Head, Dandruff, Tooth Ache, Burns, Ulcerated Sores, and all Eruptions of the Skin. It has been used with great success in cases of Croup and Tight Cough, by freely rubbing the Chest, or parts affected, so as to cause a free circulation. Also, in severe cases of Colic or Diarrhoea, by using ten drops internally, in a little brandy.

THE PANACEA—For the cure of Scrofula, Ulcerated Scrofula, and Scrofulous Affections of the Bones, Membranes, Erysipelas, Fever Sores, Fistula, Kings Evil, Scald Head, Scurvy, Piles, Dandruff, and all Cutaneous Diseases; Eruptions of the Skin, or Pain in the Bones, and Ulcers arising from an injudicious use of Mercury, or an impure state of the Blood.

This Panacea, for clearing the Pimples and Eruptions from the face, and restoring it to its usual freshness and beauty, is unsurpassed. It is valuable in regulating Obstructed or Excessive Menstruation, Pueral Ailments, Spinal Complaints, Nervousness, Debility, Inflammatory and Chronic Rheumatism, Chronic Sore Eyes, Jaundice, Fever and Ague, and all impure diseases of the body.

READ THE FOLLOWING LETTERS.

NEW YORK, October 1, 1890.—I have made a chemical examination of the Vegetable Powder prepared by Mr. Emmanuel Lyon, for the purpose of destroying insects. I do not find it to contain anything deleterious to health, or what may be considered poisonous to the human species; but it is very destructive to insects, whenever they are forced to inhale the fine particles or dust occasioned by throwing the Powder forcibly in places where they frequent.

J. R. CHILTON, M. D., Chemist.

NEW YORK HOSPITAL, June 9, 1890.—I have analyzed Emmanuel Lyon's Magnetic Powder, for the destruction of insects, and certify that it is entirely free from mineral or other corrosive poisons. As the result of my examination, I would say that it is a combination of various vegetable substances having a peculiar influence on the insect kingdom, and that it may be used with perfect safety. In reference to its utility, its effects are astonishing. I believe it to be a skillfully prepared substance, by which a valuable result is obtained, which does effect what Mr. Lyon says, and is well deserving of public patronage.

LAWRENCE REID, Prof. of Chemistry.

GIBSON HOUSE, Cincinnati, October 8, 1890.—We procured of Mr. B. H. Meakin, some of Lyon's Magnetic Powder and Pills, and cheerfully certify as to its perfect efficacy in destroying Roaches and Rats, within a few minutes after its application. It is the most simple, yet perfect remedy we have ever seen.
